Duty Officer/Responder Name: Christopher Jimenez	NRC Report #: 1253618	Hotline Log DataID: 2566454
Action Information		
<p>Description: 1130 REOC is currently coordinating with USCG, and the responsible Party. Although we haven't been able to pin point the location of the spill it appears at it is in EPA response jurisdiction. The spill location is apparently in a tidally influenced structure (manhole 8938). Con Ed has a contractor on-scene and has initiated a cleanup. They have also boomed off Fresh Kills Creek close to the structure as a precaution. There has been no discharge to Fresh Kills Creek reported at this time. REOC is awaiting a report back from CG Sector NY who has deployed responders to the scene, to determine further action.</p> <p>1500 CG responded to the scene and noted that Con Ed was engaged in clean-up activities, Vac trucks were on scene collecting oil. No oil sheen was noted in the Fresh Kills Creek, Clean Harbors was maintaining boom as a precaution</p>
